

Avyakt BapDada 30th May 1973

(to pandavs)

Do all of you consider yourselves to be mahavirs of the Pandava Army? A mahavir is powerful - are you this? Do you give power to the weak souls who come in front of you? Or are you still filling yourselves with power? Are you bestowers? Or are you still taking? Have you attained the inheritance of all powers, or do you still have to attain it? Is it still the time to attain this for yourself? Or is it the time to inspire others to attain it? Is this the time to take effort from others so that you become great? If you continue to take any type of service in any way from others, then are you going to give the return of that service in the future? Is the future the time to experience the reward, or the time to give the return fruit? While keeping all of these things in the intellect, check yourself: what will my final part be and what will my future be? When you bestow the treasures you have received now from the Father, when you donate life to the thirsty and desperate souls through your own powers, when you bestow the blessings you have received and bring these souls closer to the Father, only then will you claim a royal status. Only then will you fill yourself for the next 21 births with the sanskars of being a bestower.

Why is this confluence age called the most auspicious and elevated age? Because, at this time you souls are filled like a record with every type of greatness of every religion, kingdom, elevated sanskars, elevated relationships, and elevated virtues. You are filled at this time with the sanskars of both the ascending and descending stages of the 84 births. We are in the period of recording this.

When people record a physical record, they pay great attention to the atmosphere, to their attitude, and to their words. If their attitude is mischievous, if they do not concentrate, then their words do not have the sweetness to attract others. So they stabilise themselves in the type of song they are going to sing: if they sing a sad song without creating a sad consciousness, then the listeners will not enjoy it. When even those who sing or record worldly songs pay so much attention, then do you, who fill the unlimited record for the whole cycle, pay attention to all those things at all times? Do you have the attention that a record is being recorded at every second? Do you pay this much attention? If, whilst recording, you become lazy, or lose enthusiasm, then what will the record be like? So do you become lazy, or do you always maintain enthusiasm?

Do you sometimes look, as a detached observer, to see what you have recorded in your record throughout the whole day? Just as, when you record a tape, you listen to it to see if it has been recorded correctly? What do you feel when you see your record? Do you like it? Are you happy that you have filed it accurately? Whilst looking at yourself, do you think that you have to record it better than that? You look at the result, do you not? Do you check yourself daily as a detached observer? Have you become checkers? How can those who have not become checkers become makers? Do you forget this? You have to fix the timetable of the soul. If you have forgotten this common discipline, then the soul is very weak. Will those who cannot conduct themselves according to the Godly disciplines and Godly codes of conduct be able to rule the lawful kingdom of the world, according to the laws of the world? How can those, who have not claimed confluence age ruling status, claim a future ruling status?

Now, BapDada and the elevated co-operative souls can help you effort-making souls move forward, by giving you a thousand-fold return of co-operation, support, and love, and by giving you power in relationships. However, soon this receiving of a lift will stop. You can take whatever you wish now. Later, the Father's loving form will change, and he will take on the form of the Supreme Judge. Your relationship with a judge may be loving, but the law is the law. At present it is the time of love, but then it will be the time of law. At that time you will not be able to receive a lift. Now is the time of attainment, but in a short time this will change to the time of repentance. Will you sleep until then?

BapDada says to all of the children: create a reward for a long time in a short time. Do not carelessly wait for time. Always be aware that your every action is the basis of recording your record for 84 births. Set your attitude, your atmosphere, and your words, accurately. Make your atmosphere powerful with through the power of introspection. Only when you elevate your consciousness, and fill your words with significance, will you be able to improve your result. Without becoming a checker you cannot become a maker.

You should now terminate your complaints. Who is responsible for finishing your weaknesses? If you think that your teacher is responsible, it proves that you want to become their subject in the future. This is a sanskar of being dependant, is it not? Those who remain dependant cannot claim all rights. They cannot claim the kingdom of world. Only those who are responsible for themselves can take take responsibility for the whole world, and so become world emperors. You are children of the world benefactor so why can you not bring benefit to yourselves? This is like a millionaire being unable to experience even a penny-worth of happiness. If you are masters of the treasure of all powers, can you not use a little of that power for yourselves? Are you Brahmins of the confluence age? Do you belong to the confluence age, or have you put a foot in the iron age, thinking that if you are unable to stay in the confluence age, you will go away somewhere else?

You have to make intense effort from now on. Have the determined thought that you must do this and you must become this. Only those who are fast, and who can accomplish all tasks within a second, will attain salvation. Achcha.

To those who check their every thought, deed, and word, to the world benefactor and world transformer souls, who bring benefit to themselves and to the whole world at every second, and in every thought... BapDada's love, remembrance, and namaste.
